City Point and Faustina were well represented at the meeting of the Indian River Baptist association at Indianola. It was our first opportunity to attend a Baptist association. We were much impressed with the zeal and earnestness displayed by both the clergy and laymen. If any of the readers of THE STAR ever have an opportunity of attending an association in the future they should not fail to take advantage of it.

## For Hoarseness.

Ministers and elders are present from all parts of the state of Florida.

## Robert Morris to be Honored.

A statue is at last to be erected in honor of Robert Morris, the financier of the American revolution, whose services during the struggle for independence have been but inadequately recognized. The Fairmount Park Art association, of Philadelphia, is the organization that has concluded to honor itself by associating its name with that of the man who, from his own resources and from his friends, raised \$1,000,000, which in those days was an immense amount, to purchase food, clothing and ammunition for the Continental army. The city of Philadelphia feels that it should wipe out the stain of the disgrace it called down upon itself by permitting him to be imprisoned for debt.

## Getting Thin

is all right, if you are too fat; and all wrong, if too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: over-work and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can. There's a limit, however; you'll pay for it.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work—you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

SCOTT & BOWNE Chemists, 409 Pearl Street, New York.

Capt. and Mrs. McNabb entertained friends Tuesday by giving them a spin on Indian River in their new cat boat "Sister Alice." Among those on board were Mr. and Mrs. E. W. Stickney, Mrs. Canfield, Mrs. McNabb, Mrs. Danforth, Miss Anna Danforth and Miss Lizzie Danforth. The party returned about 5 o'clock, after bagging some fine trout in the Banana river. Capt. McNabb was in command of the boat.

## The Refuse of Cassava.

If the refuse of cassava after the extraction of its starch can be utilized for stock feed another encouragement to the stock industry is open to the extreme south.

The Seminole Manufacturing Co., of DeLand, whose business is to manufacture starch from cassava roots, and who have a thoroughly-equipped plant at Stetson, and have several hundred acres planted in cassava at DeLand and Spring Garden, is anxious for some large, energetic and enterprising cattle man to test the fattening qualities of the cassava pumice. This pumice is the residuum after the starch has been extracted from the roots, and Mr. Wardelle, the general manager of the company, who has had the material analyzed, says it is an admirable, well-balanced ration, and that with the addition of a little cotton seed meal, oil cake and velvet bean hay, it will make as fine beef as that shipped up in refrigerator cars from Chicago. The company is willing to make a contract with any cattle owner to feed any number of cattle at so much a head per day—and the price charged will be very low—as it wishes to test the fattening qualities of the material for possible future business.

With the pumice of the cassava going into beef, and the bagasse of the sugar mills converted into paper, and cotton seed into oil, the wastes of the southern farm would be changed to great utilities. The time may come that the utilization of farm wastes, like the wastes of the packing house, will afford the chief profits. When these results are accomplished the southern farmer will be among the most prosperous in the land.

Dr. Loyal Ford's Dyspepticide is a cure, not a mere relief for indigestion. It digests the food and makes the stomach right. B. R. Wilson & Son.
